SIMON IPARA

FULL STACK DEVELOPER

simonipara428@gmail.com | +254 791267482 | my-portfolio website

Self-Driven Fullstack Developer

Experienced Full Stack Developer with expertise in developing dynamic applications, enhancing user experiences, and driving operational efficiency. Skilled in both front-end and back-end development, with a strong foundation in Java, PHP, JavaScript, C and modern technologies. Proven track record of building scalable applications and delivering tailored solutions for schools, businesses, and organizations.

Innovative Developer Delivering Seamless Web Experiences. Expert in designing and developing responsive, user-friendly web applications.

Collaborative Leader and Team Player Skilled in staff training and user support. Strong communicator fostering team collaboration and productivity.

Strategic Problem Solver Driving Digital Transformation. Enhanced performance analysis through dynamic reporting and data visualization.

PROFICIENT SKILLS

- APIs
- Prompt Engineering: Advanced context management for structured LLM outputs
- Database Systems: Relational database administration using PostgreSQL, MSSQL and MySQL
- Mobile Development: Cross-platform mobile engineering using C# and .NET MAUI
- Version Control: Collaborative repository management and branching strategies via Git/Github.
- Core Programming: Polyglot proficiency in TypeScript, JavaScript, C#, Java, and PHP
- Problem Solving: Root-cause bottleneck isolation and rapid transition from requirements to code.

WORK EXPERIENCE

Intern at InterSoft Technologies Consulting (E.A) LTD — Kasarani, Nairobi
Junior Software Developer — May - August 2025

- Develop, enhance, and maintain mobile healthcare platforms using Node.js (backend) and React (frontend), ensuring secure, scalable, and patient-centric solutions.
- Collaborate with cross-functional engineering teams to design and implement new telemedicine features, resolve coding gaps, and optimize application performance for mobile environments.
- Build and manage Node.js-based ETL workflows to support healthcare data migration, enabling seamless Extract, Transform, Load processes across hospital and clinic systems.
- Provide technical support for patient data onboarding, troubleshooting migration issues, and ensuring smooth integration of client healthcare records.
- Design, optimize, and manage databases MSSQL) to guarantee data integrity, compliance, and scalability in telemedicine applications.

Freelancing

Nairobi

Independent Software & Web Developer

Jan 2025 - Present

- Designed and deployed custom websites and web applications for clients across education, e-commerce, and professional services.
- Delivered responsive, user-friendly interfaces using HTML5, CSS3, JavaScript, and modern frameworks.
- Built database-driven applications with secure authentication and role-based access.
- Provided ongoing technical support and training, ensuring smooth adoption of new systems.
- Helped clients improve online visibility and customer engagement, leading to measurable business growth.

OTHER EXPERIENCE

Chuka University, Tharaka Nithi

4th Year Project

Jan - April 2026

- Built a full-stack HMIS application using Next.js for the front-end and Node.js for the back-end.
- Designed a modular architecture with CRUD functionality for patient records, billing, and appointment scheduling.
- Implemented secure authentication and role-based access control, ensuring patient data confidentiality.
- Developed a responsive dashboard UI for administrators and healthcare providers, improving usability and reducing onboarding time.
- Applied data visualization techniques to track patient flow and generate predictive reports.
- Delivered a fully functional prototype demonstrating scalability, security, and real-world applicability in healthcare workflows.

EDUCATION

Chuka University

Tharaka Nithi, Kenya

Sept, 2022 - April 2026

- Bachelor of Science Applied Computer Science
  - Second Class

CERTIFICATES

- Intersoft Recommendation Certificate
- Graphics Design: Canva Proficiency.
- Data Analysis: SPSS & Stata Certification.
